Toyota Capital Malaysia may sell/dispose the vehicle either by public auction or private sale in order to recover the amount owing under the TOYOTA EZ BELI PLAN Agreement. The proceeds from the sale will be used to pay the balance outstanding under the Agreement. On the other hand, if there is any surplus amount after full settlement, this will be refunded to you.

11. What if I fully settle the loan before its maturity?

You will be entitled to a rebate on the interest unearned by Toyota Capital Malaysia for early settlement. The rebate is a partial refund of the term charges (interest) calculated according to a formula stipulated in the HP Act.

For example, if you wish to fully settle your loan after paying 48 monthly instalments, you will get a rebate on the term charges for the remaining 12 months (i.e., 60 - 48 months = 12 months). Example of calculation of rebate is as follows:-

Loan Amount = RM50,000 at 3.0% p.a. for 5 years, Total term charges = RM7,500

$$\text{Rebate on interest} = \frac{\text{RM7,500} \times (1+2+3+\dots+n)}{(1+2+3+\dots+k)}$$

Where: n = remaining repayment period (in months), i.e. 12 months
k = original repayment period (in months), i.e. 60 months

$$\text{So, rebate on interest} = \frac{\text{RM7,500} \times (1+2+3+\dots+12)}{(1+2+3+\dots+60)} = \frac{\text{RM7,500} \times 78}{1,830} = \text{RM319.67}$$
